

# Wanna

**Baxter Dury**

So there's nothing left of me  
Just poor decisions that I think I've made  
So there's nothing in your face  
Tells me I've done wrong

I wanna say something nice to you  
But I don't think I know how  
I'm just waiting for me to say something I believe

So there's something I should take  
Trying to make difference to my worst  
But I'm laying low today  
Breaking up habits don't feel safe

I wanna say something nice to you  
But I don't think I know how  
I'm just waiting for me to say something I believe
