

White Coats

Baxter Dury

White coats
I seen you sleeping
Thinking you are it
Laughing like I caught it
I don't
Think you know we're talking
But I've got it any
Laughing anyway

White coats
I've seen you talking
All you do is looking
Laughing like I've got it
I don't
Really care, you're sleeping
Pretending there's nothing
Everyone is smiling

White coats
Everybody's laughing
No one really cares
What you're really saying
All those
Funny little people
Running round in circles
Pretending they are happy

White coats
I've seen you talking
All you do is looking
Laughing like I've got it
I don't
Really care, you're sleeping
Pretending there's nothing
Everyone is smiling

White coats
I seen you sleeping
Thinking you are it
Laughing like I caught it

White coats
All there is is you
All there is is me
Things will let you seem the same

White coats
I've seen you talking
All you do is looking
Laughing like I've got it
White coats
All there is is you
All there is is me
Things will let you seem the same
