

I'm up every hour, never down on myself  
I don't have the facility  
To know what you felt  
So call it living in the minute  
Call it living cheap  
I call it never be a father  
All I think of is me

Cause if it won't work  
To love me wholly  
To watch me when I hurt  
Dry me when I'm dripping  
Entire summer I've been gifted

It'll never work out  
Figure something else out  
Baby it's okay  
I'll go home early today  
It'll never work out

Chuck around the city  
With your charm on my belt  
I could call your sister  
Keep your thumb in my mouth  
I don't set a boundary  
Then get light on my feet  
I keep pictures of us  
I know you're thinking of me

Cause if it won't work  
To love me wholly  
To watch me when I hurt  
Dry me when I'm dripping  
Entire summer I've been gifted

It'll never work out  
Figure something else out  
Baby it's okay  
I'll go home early today  
It'll never work out
