

## It's Perfect

Bay Faction

I start a convo in a CVS  
Finish at your house  
You'll never hear from me  
Don't ever hit me back again

Just call me when you want  
I'll come after she's gone  
You're stalling, beating heart  
No more after this one

On the first date  
I'll let you get your fix  
To blow my kiss  
Satiated but only in my cage  
AmEx envelope to donate  
Call me when you want  
I'll come after she's gone  
You're discreet, breathing hard  
No more after this one

A cream Beamer never looked so stressed  
I was lonely  
You're older  
Money bored to death

Just call me when you want  
I'll come after she's gone  
You're stalling, beating heart  
No more after this one

On the first date  
I'll let you get your fix  
To blow my kiss  
Satiated but only in my cage  
AmEx envelope to donate  
Call me when you want  
I'll come after she's gone  
You're discreet, breathing hard  
No more after this one

No more after this one
