

Silly Whitney

Bay Faction

Gun metal middle part
Gaze like a torch in the woods
I miss your first car
With the dent on the hood
We sit and say nothing
After you do all the work
When we're done I'd roll something
You'll ask me how I got good

Silly Whitney where'd you go?
I came inside you then you put on the Strokes
Silly kiss inside a beat up Nissan Rogue
Silly question will we do this when we're old
Silly Whitney what's the plot?
You're middle class I know it bothers you I'm not
That's why I shower every time you get on top
That's why I always put one on you pull it off

You love the silence
When he goes to work
You probably don't feel it yet
But I know for a fact that you're bored
And I'm just a memory
A quiet fuck in the park
Tell me do you feel it when
I remember that to jerk off

Silly Whitney where'd you go?
I came inside you then you put on the Strokes
Silly kiss inside a beat up Nissan Rogue
Silly question will we do this when we're old

You're middle class I know it bothers you I'm not
