

# Sopping

Bay Faction

I'm quiet, not cute when I laugh  
Forbid I'm recognized for that  
I count it where I want  
'Cause I'm never alone without him

Fall off the bone  
Drink all night  
Sopping wet, 2009  
Young life, what's it like?  
How's it disappear?

You're everything, my whole life  
It's everything to me that you're alright  
Every time, almost every night  
I still come to you  
I still come to you

Everybody buys  
But can't swim  
Everybody knows to forget  
To boost it on my end  
To boost it on my end  
How to keep a man, asking for a friend

I leave your house  
It won't end  
Get on the road  
Need a drink  
To boost it on my end  
To boost it on my end  
How to keep a man, asking for a friend

Try to forgive, try to lose my past  
Cruel and never looking back  
Am I sick? What's the bug?  
No, it's never enough without him

Fall off the bone  
Drink all night  
Sopping wet, 2009  
Young life, what's it like?  
How's it disappear?

Everybody buys  
But can't swim  
Everybody knows to forget  
To boost it on my end  
To boost it on my end  
How to keep a man, asking for a friend

I leave your house  
It won't end  
Get on the road  
Need a drink  
To boost it on my end  
To boost it on my end  
How to keep a man, asking for a friend
