

The Hamptons

Bay Faction

And I want to know what it's like to live in the Hamptons
I want to know what it's like to never have to choose
I want to find you
And I wish I never found you

And I want to make a snuff film with all my friends
I want to watch someone die just to see to the end
And feel nothing at all
Felt nothing at all
I felt nothing at all

I put words in your mouth oh oh
Just like nails in your throat
And I put words in your mouth oh oh
Just like nails in your throat

And I feel bad about the film I made with friends
You didn't have to die for me to watch 'til the end
And feel nothing at all
'Cause I felt nothing at all
And I felt nothing at all

And I want to be something you can say you miss
I want to feel your legs break every time we kiss
And feel something at all
'Cause I feel nothing at all
And I felt nothing at all

It's just Jasper getting the best of me
Just Jasper, just Jasper

Just Jasper getting the best of me
Just Jasper, just Jasper
Just Jasper, just Jasper
Just Jasper, just Jasper

'Cause I put words in your mouth oh oh
Just like nails in your throat
And I put words in your mouth oh oh
Just like nails in your throat
