

Cloud Vision

Bay Ledges

I was trying to let go
It's good to be a little scared
If you wanna take some more
Your vision gonna be impaired

The road is a dried up river
The sun is a new light
I wish I was laughing here with ya
Melting into the sky tonight

I'll grow out my hair and be a wiseman, wiseman
Like nobody been before
From desert to beaches
Crossing the white sand, white sand
Tell me what you're looking for
I wanna be free
I wanna be free
Living like a wiseman, wiseman, wiseman on this land

I was looking at the clouds
And normally I wouldn't care
But I can hear them talking now
"Hello my friend, we're always here"

The road is a dried up river
We're taking it back home
The sound of your voice is in color
Coming to life in the light of the moon

I'll grow out my hair and be a wiseman, wiseman
Like nobody been before
From desert to beaches
Crossing the white sand, white sand
Tell me what you're looking for
I wanna be free
I wanna be free
Living like a wiseman, wiseman, wiseman on this land

Lucy starts dancing
Diamonds everlasting
Lucy starts dancing
Leave my head in heaven
We could live a new life
Every single second

I wanna be free
I wanna be free
Living like a wiseman, wiseman, wiseman on this land
