

Electric Dream

Bay Ledges

Sounded like a slip of the lips
Grounded like I'm missing my kicks
Outside, stuck in a line like fools
Next to you
Stamped hands hangin on hips
Can't dance, scared to be dissed
This tall glass, I wanna feel brand new
Next to you

Can you feel us, tonight
Shake me loose from your ball and chain
Can you feel us, alive
Wake me to this electric dream

You got strange rhythm, don't listen
Try to sway in the way you were given
Who got your heart? Did someone cut it loose?
I wanna be next to you
Stamped hands hangin on hips
Can't dance, scared to be dissed
This tall glass, I wanna feel brand new
Next to you

Can you feel us, tonight
Shake me loose from your ball and chain
Can you feel us, alive
Wake me to this electric dream
