

keep going

Bay Ledges

La la la la la, la la la la la, la la la la la, la la la la la

Back in the garage
Back playing for love
Comes out in the wash
I can hear you above

And I will not let go baby
No, I will not lead you astray
Oh, I will not let go baby
There's too much left I have to say

La la la la la, la la la la la, la la la la la, la la la la la

Don't try to be right
Watch your step on the stairs
Keep your head in the light
It's only money, who cares

Keep your head in the light
Keep your head in the light
La la la la la, la la la la la, la la la la la, la la la la la
Keep your head in the light
Keep your head in the light
