

Like A Bird

Bay Ledges

She keep talkin' like she's all in the know
I yawn and lookin' at my watch
'Cause I'm ready to go
Like a bird on a telephone pole
I'd rather be all by myself
Than the party below

This waste of time
I can't decide
Where I should hide
Let's take a ride
Come feel the night
Fade into light

I don't wanna talk to no-nobody
I don't wanna be out here at this party
I don't wanna talk to no-nobody
But you, you, you

The sky is gray
And I've been feelin' the same
Is there a pill that I can take
To stop the rain in my brain?
(Go away)
Like a bird floating over the world
I wanna open my wings
And take the wind where it goes

This waste of time
I can't decide
Where I should hide
Let's take a ride
Come feel the night
Fade into light

I don't wanna talk to no-nobody
I don't wanna be out here at this party
I don't wanna talk to no-nobody
But you, you, you
You

This waste of time
This waste of time
I can't decide
Nobody, but you
This waste of time
This waste of time
I can't decide
Decide, decide, decide

I don't wanna talk to no-nobody
I don't wanna be out here at this party
I don't wanna talk to no-nobody
But you, you, you

Yeah, and I don't wanna talk to no-nobody
I don't wanna be out here at this party

I don't wanna talk to no-nobody
Nobody, you
Nobody, but you

Nobody
Nobody
Nobody, but you
Nobody, but you
Nobody, but you
Nobody, but you
