

## Setting Free

Bay Ledges

Walking out into the daylight tripping  
I don't wanna be the last one to the top  
Is it me or just the way you're looking  
If you make me start to laugh now I won't stop  
Don't stop  
Stop

Animals without their cages  
Flying through the air, your windows free  
Yesterday I spread your ashes  
Out where the river meets the sea

I wanna know where your love goes  
I wanna know how to set me free  
I wanna know where your love goes  
I wanna know how you set me free

I wanna know where your love goes  
I wanna know how to set me free  
I wanna know where your love goes  
I wanna know how you set me free
