

Stay

Bay Ledges

We're like clouds overhead
Floatin' by
Feel the world slowly turnin'
Lift the darkness from your eyes

Yeah, think about you every day and night
This whole life is here for just a moment
Yeah, think about you every day and night
Know this time is going by [?]

Now there's nothing left to do
But fall into
(Fall into)
The moonlight in your room
And stay right through
(Right through)
Sunday morning
Sunday morning, yeah
Sunday morning
Sunday morning
Stay one more day
Stay one more day

Your bed is like an island
In the sky
See the light fade to diamonds
And your skin starts to shine

Yeah, think about you every day and night
This whole life is here for just a moment
(Just a moment, just a moment)
Yeah, think about you every day and night
Know this time is going by [?]

Now there's nothing left to do
But fall into
(Fall into)
The moonlight in your room
And stay right through
(Right through)
Sunday morning
Sunday morning, yeah
Sunday morning
Sunday morning
Stay one more day
(Stay one more day)
Yeah, stay one more day
(Stay one more day)
Oooh, stay one more day
Aaaah, yeah

(Stay one more day)
(Stay one more day)
(Stay one more day)
Oooh, stay one more day
Aaah, stay one more day
(Stay one more day)

Ooh
One more day
Ooh, one more day
