

## swim to the buoy

Bay Ledges

Maybe we were just too scared alone  
Compact disc and a flipping phone  
Your penmanship was perfect  
Cursive in my mind  
Waiting on a beach where nobody came  
Watch you with your big feet kicking the waves  
I'd rather be with friends cooking my brain  
Playing video games

And I see you  
See you out in the water  
Somewhere you're meant to be  
And I see you  
See you out in the water  
Somewhere you're meant to be

See a sliver of light, see the sky divide  
And I kept your watch not for telling the time  
I get so wrapped up in other people's minds  
Could you tell what was on my mind  
See the faded light on the distant ships  
And I still feel a little emptiness  
I thought by this point I'd be stronger than I am

I see you out in the water  
Somewhere you're meant to be  
And I see you  
See you out in the water  
Somewhere you're meant to be

See a sliver of light, see the sky divide  
And I kept your watch not for telling the time  
I get so wrapped up in other people's minds  
(Somewhere you're meant to be)  
Could you tell what was on my mind  
See the faded light on the distant ships  
And I still feel a little emptiness  
(See you out in the water)  
I thought by this point I'd be stronger than I am
