

Those Old Days

Bay Ledges

Two, one, two, three, four

Those days feel
Now they feel so far away
Hey, baby
I can't see
I might have known another way
Hi, baby
I've been walked on before
Ain't gonna be your dance floor now
I know
I was foolish
Defenseless
But I'm coming to my senses now
Hey, hey
'Cause those days are gone

I felt the world stand still
Didn't build the machine
But we greased the wheel
It was only a matter of time
I'm gonna dance all night
'Til the river's dry

I felt the world stand still
Didn't build the machine
But we greased the wheel
It was only a matter of time
I'm gonna dance all night
'Til the river's dry

I'm just here
For a little getaway
Hi, baby
No one needs to tell me
How to celebrate
I know
Got enough for a free ride
Now, oh, I gotta pay for a good time
'Cause those days are gone

I felt the world stand still
Didn't build the machine
But we greased the wheel
It was only a matter of time
I'm gonna dance all night
'Til the river's dry

I felt the world stand still
Didn't build the machine
But we greased the wheel
It was only a matter of time
I'm gonna dance all night
'Til the river's dry
