

Tween Love

Bay Ledges

Down at the carnival
Standing in the wind
Your eyes are on my face
And I can feel my heart again

You step into my room
Step into my room

Out playing with fire
With smoke on your breath
Split a stick of gum
Before we both forget (forget, forget)
And I could jump right out of my skin
When ever you get close
And I should head back soon
But your mother ain't home

Step into my room
Step into my hand

Down in the carnival (my room) (my)
Down in the carnival (my my my)
Down in the carnival (my my)
Down in the carnival (my)
Down in the, down in the carnival (my)
Down in the, down in the carnival

Your eyes are on my face
Step into my room
Step into my hand
Step into my room
Step into my room
Step into my room
Step into my hand
Step into my room
Step into my hand
Step into my room
Step into my room
Step into my room
Step into my hand
Da da da da

Step into my
My room
Step into my
My room...
