

# Up

## Bay Ledges

I wanna be up with you  
Wanna shine like a light  
That's breaking through  
I wanna reach out and touch the sky  
Wanna feel the golden love you cry

And I was sittin' in the sun  
At the breaking of the dawn  
And I'll be sittin' in the sun  
'Til it's all the way gone  
Yeah, watching your dog  
Walk along the lawn  
How the birds up above  
Carry a song

And I can see that  
This feeling, no better  
I hope we live forever  
Daydreamin' together  
Your floatin' like a feather  
I wanna be up with you  
I wanna be up with you

They say you just jump  
And don't try  
You know fear is a thing that's passing by  
Don't need much  
Just a little bit of time  
Days'll change, the past will fade  
And the future's ours to find and...

This feeling, no better  
I hope we live forever  
Daydreamin' together  
Your floatin' like a feather  
I wanna be up with you  
I wanna be up with you

Blue skies  
Stuck in your eyes  
Let me get lost on the other side  
This cloud will never come down  
Flyin' so high  
The world looks better now  
I wanna be up  
The world looks better now, yeah  
I wanna be up  
The world looks better now

This feeling, no better  
I hope we live forever  
Daydreamin' together  
Your floatin' like a feather  
I wanna be up with you  
I wanna be up with you

I wanna be up

The world looks better now, yeah  
I wanna be up  
The world looks better now
