

## Wherever You Sleep

Bay Ledges

Walking downtown, are you better now  
I've been feeling up, I've been feeling down  
See the sunshine as it's fading away  
I send a little light to ya  
Wherever you stay

Gotta get you out of my head  
Sleeping on your side of the bed  
Gotta get you out of my head  
I've been searching  
Nothing's working

Going back home the 10's moving slow  
So tell me what's the secret when you're letting go  
See the moonlight shining down on the street  
I send a little light to ya  
Wherever you sleep

Gotta get you out of my head  
Sleeping on your side of the bed  
Gotta get you out of my head  
I've been searching  
Nothing's working

Think about it when I'm dancing  
Think about it when I hear your song  
Think about it when I'm asking  
How did everything go so wrong

Headed west bound toward the ocean sound  
I hear you talking to me but there's no one around  
See the coastline, where it's fading away  
There's a morning I remember  
We swam in the waves

Gotta get you out of my head  
Sleeping on your side of the bed  
Gotta get you out of my head  
I've been searching  
Nothing's working
