

Wild_

Bay Ledges

Like your mother's new eyes
Like the water that's making you sway
Like the hand of the tides
I will take this pain away

When I get back
And see your smile
When I get back
The river runs wild

To my cousin, my blood
I'm ashamed that I missed you
Before the end
I hope you know I loved
The way you held us together
And the way that you danced
When I get back
I wanna see your smile
When I get back
I'll be wild
