

## How Does It Feel?

BAYNK

If you go, I don't wanna know  
My dad said you were at the show all alone  
Things change, yeah, they come and go  
'Cause we're running outta time, I can't feel your afterglow

How does it feel to lose again?  
Laying in the sun  
Wishing you were numb  
How does it feel to lose again?  
Laying in the sun  
Wishing you were numb

Heard your song on the radio  
Green light stopped the cab and said, "Gotta go"  
I took your name from my telephone  
And I burnt it in a pile at night and watched it explode

I feel where your touch has burned my chest  
But I gotta let it go  
Just don't kiss that guy from the front row  
Or lie and say you won't

How does it feel to lose again?  
Laying in the sun  
Wishing you were numb  
How does it feel to lose again?  
Laying in the sun  
Wishing you were numb

I just can't lose, I just can't lose  
I just can't lose, I just can't  
I just can't lose, I just can't lose  
I just can't lose, I just can't

I just can't lose, I just can't lose  
I just can't lose, I just can't lose  
I just can't lose, I just can't lose  
I just can't lose, I just can't lose

How does it feel to lose again?  
Wishing you were numb  
How does it feel to lose again?  
Wishing you were numb
