

## Settle

BAYNK

It's not what you say to me  
No, it's just the way that you say it to me  
So tell me you want me tonight  
Come over and sip on this wine

'Cause if I'm faded, you're faded  
We ain't fading too  
I saw the best part of me inside of you  
Calling you my lover without a title  
So what you wanna do?

Baby, I've been dying to know  
Are you someone I can call my own?  
I just catch you after the fall  
Wondering if you already know  
Because I promise you I'll protect you forever  
Yeah, if you want me to I'll stick with you, we settle

And I feel your pheromones  
Yeah, you really get me into my zone  
Loving you only feels right  
Could never be too many types

And if I'm falling, you're falling  
We ain't falling through  
I saw the best part of me inside you  
Calling you my lover without a title  
So what you wanna do?

Baby, I've been dying to know (dying to know)  
Are you someone I can call my own?  
I just catch you after the fall  
Wondering if you already know  
Because I promise you I'll protect you forever  
Yeah, if you want me to I'll stick with you, we settle

Settle (hm), settle (hm), settle (hm), settle (hm)

Baby, I've been dying to know (dying to know)  
Are you someone I can call my own?  
I just catch you after the fall  
Wondering if you already know  
Because I promise you I'll protect you forever  
Yeah, if you want me to I'll stick with you, we settle

Yeah, ooh  
Must be something in there, no? (Yeah)
