

Till It's Even

BAYNK

Your love

First light
I want to come around
I'll try to keep it down
But the sound and the light
Keeps flickering off

First light
I'd rather risk a dent
It seemed too innocent
But the look in your eyes
Keeps flickering off

Your love won't go till it's even
Your love won't go till it's even
Your love won't go, you need more love
Your love won't go till it's even

Your love
Your love
Your love
Your love

Last light
That's when I tried to leave
You tried not to believe
That our time here was up
It keeps crossing my mind

Last light
Just when I couldn't stop
The exit's coming up
And the sound and the light
Keeps flickering on

Your love won't go till it's even
Your love won't go till it's even
Your love won't go, you need more love
Your love won't go till it's even
Oh
Your love won't go till it's even
Your love won't go, you need more love
Your love won't go till it's even

Your love
Your love
Your love

Your love won't go till it's even
