

Miracle

Bayside

I don't wanna keep my voice down
I will be screaming my lungs out
And you do whatever you do
(You do whatever you do)
And it's not like you needed reminding
But I'm not one to suffer in silence
I'm not sure that I thought this through
(Not sure that I thought this through)

'Cause I know it even though I can't control it
It's a brave new world out there
And I feel it even when I couldn't see it
It's a brave new world
It's a brave new world

I'm already in so deep
And I've gotta get off my knees
Will I waste my life trying to get by
When a miracle is what I need
When a miracle is what I need

I just want to let my hair down
I don't think that you understand now
My talent for making a fuss
(My talent for making a fuss)
Why can't everything just stay the same and
Why's everyone desperate for changing
I thought I was fine how I was
(I thought I was fine how I was)

And I know it even though I can't control it
It's a brave new world out there
And I feel it even when I couldn't see it
It's a brave new world
It's a brave new world

I'm already in so deep
And I've gotta get off my knees
Will I waste my life trying to get by
When a miracle is what I need
When a miracle is what I need

I don't wanna push it away
I like to hear myself complain
It's my favorite part of the day

And I don't wanna push it away
I like to hear myself complain
It's my favorite part of the day

I'm already in so deep
And I've gotta get off my knees
Will I waste my life trying to get by
When a miracle is what I need
When a miracle is what I need
