

# Monster

Bayside

I try, try I look for bad on the inside  
but heaven knows you're heaven sent  
your skin stretches perfectly over perfect placed bones that shame the greatest architects

This time there's nothing I can do  
My heart has swelled to twice it's size I've got everything to lose

Walk, walk with me through a mind where everything is too good to be true  
I'll chance suspense  
I don't believe in much now I bring things up just to shoot them down  
I guess just for the night I'll bend

This time there's nothing I can do  
My heart has swelled to twice it's size I've got everything to lose  
I'm just good for a one night stand  
a night to I'll find something new, I can't control this monster I am

This time there's nothing I can do  
My heart has swelled to twice it's size I've got everything to lose  
I'm just good for a one night stand  
a night to I'll find something new, I can't control this monster I am
