

Strangest Faces

Bayside

I have seen the strangest faces
Yellow teeth and scary eyes
It turns out they've been there all my life, life, life, life

I have seen the strangest faces
Yellow teeth and scary eyes
It turns out they've been there all my life, life, life, life

It's hard to find a friendly face when you've got nothing left
to sell
Looks like heaven
Why's it hot as hell, hell, hell, hell

A clean escape, is that what you're offering?
Well, I'll fuck it up 'cos that's what I do
May we part as lovers and die as friends
It's a million dollar view to drown in the ocean with you

I have seen the strangest faces
Yellow teeth and scary eyes
It turns out they've been there all my life, life, life, life

It's hard to find a friendly face when you've got nothing left
to sell
Looks like heaven
Why's it hot as hell, hell, hell, hell

I'm starting to see the point they make
And if the good part ever starts, I'll hope I'm still awake

I have seen the strangest faces
Yellow teeth and scary eyes
It turns out they've been there all my life, life, life, life

It's hard to find a friendly face when you've got nothing left
to sell
Looks like heaven
Why's it hot as hell, hell, hell, hell
