22 Freestyle

We back

Yeah, yeah

Finally feel like I made it, but I'm not even close  
To where I wanna be, sellin' out shows  
Across the globe, meeting everybody that I know  
From the internet, I'm talking, Europe to Chicago  
But I gotta take a step back, think about the past year  
Went from getting no love to helping people love fear  
Writing out my thoughts and giving people my advice  
And I got so many messages that say, "you changed my life"  
Man, it's crazy how it goes down, finally in control now  
Took a little while, but I got it on my own now  
Yeah, I made the honor roll and lately I been on a roll  
Dropping all these hits, I don't think that I could slow down  
Took so many flights that I started losing count  
I New York on a on the Taz Show, I had to shut it down  
Made my first live interview, I was kinda nervous  
Told 'em drop a beat and you know that it got murdered  
Shit they never heard of, feeling so assertive  
Risin' in the game and I got rid of all my burdens  
The biggest setbacks are always hidden in disguise  
It was right in front of me, I had to read between the lines  
And I'm ready for the challenges, this is all a mind game  
Waiting for a long time, now they been calling my name  
Asking me to step up, see what I made of  
Makes me thankful for the old songs I was ashamed of  
My monthly pay went from 500 to five figures  
Bought my family gifts and paid for people's dinners  
They deserve it just like I do, I drive and the gon' ride, too  
Saw my family happy, God damn, I almost cried, too  
Got my mom a TV 'cause my music in commercials  
I came a long way from middle school band rehearsals  
I knew this shit would happen, everything is unexpected  
Shows with DJ Khaled, got my boys all on the guest list  
Everywhere I go they're coming with me now  
Every week a different city now  
People tellin' me they missed me now  
It's funny 'cause they said I was too cocky  
When I told 'em all this shit was gonna happen, now they lost me  
Movin' on to better things, no worryin' 'bout a wedding ring  
Focused on my grind, so I can never think 'bout settlin'  
Down at this age, I need a crown on the stage  
I been around everyway, you never found another me, damn  
People asking for the secret like I'm hiding something  
Really put in all the work that everybody bluffin'  
Fifteen songs and seven remixes and I still don't give a damn 'bout what the  
double-X L list is  
Put me at at the plate, all hits, no misses  
Labels reaching out, so I'ma make a couple visits now  
I been out here spendin' money on the vision  
22 years, and I never seen the competition  
Damn
