Bazanji

Yeah

I've been feeling alive, made it to twenty nine
Fully energized, already knew I'd be getting mine
Always stuck to the grind, I never fall behind
Ain't nobody do it like I do, I'm one of a kind
Never quit on myself, I'm too determined
And ain't nobody giving me nothing, I had to earn it
Gotta keep my foot on the gas, I'm never swerving
Feeling like Verstappen I'm always coming in first

No matter what's the occasion
Wake up and everyday
I'm living and celebrating
Knew that I would be great
I never ran out of patience
Now I don't miss a payment
The money started raining
Glad it never changed me
And people talk a lot but got nothing to show for it
Never scared of taking risk, I had to go for it
Now I get the reward that I've been owed for it
I might cop a Cullinan, get a driver to chauffeur it

Been a boss like Jigga man
I don't need a middle man
See the world in real life
They see it on Instagram
Always had a bigger plan
They would never understand
Multimillionaire, still remember my first hundred grand
Morals over money, that's the motto
Saint Tropez trips blurry from the reposado
Told my day ones you coming wherever I go
The way that I been winning
Feeling like we hit the lotto

They spending on a chain
I'm saving for better things
I gotta support the fam
And show 'em the better days
You telling me that I changed
I'm proud of who I became
I never took no advice
From people who can't relate
The vision is next level
The drive is next level
Write and produce it all
Take it to the next level
A one man army
I'm the soldier and the general
My heart on my sleeve
And the honor on my medal
