

Bang

Bazanji

Yeah
Seen a lot
And I made a lot
And now everyone in my lane
Yeah
Put in work
And I'm getting mine
And now every time it go bang
Coming for the top
Got the game in a lock
Every time that I drop
Know it gotta go bang
Imma keep it hot
Know that I can never stop
Keeping everything I got
Imma make it go bang
Better than the best
Imma tell it with my chest
I don't got no time to rest
Now they know what I'm saying
Everybody know I'm coming next
Imma leave it in a mess
If they wanna test
Imma make it bang

Step into the mind of young man with a plan make a few mil on a bad day
Never have another Monday
Imma do it my way, put the trust in the wordplay
Sick of seeing people with no skill at the top
I be coming for the throne like I'm Cersei
Can't nobody tell me what to do, what to be, what to say
Cuz my life been self-made
Yeah
Paid my dues
I broke the rules
I know it all
I never lose
I'm betting on myself
Still in school
They lucky now
I'm coming soon
When I get out
I'm coming for the belt
Better watch whatever they say to me
They be talking out the most but they do the least
Putting fame over money that's news to me
People hidden by their ego that's a tragedy

Yeah
Seen a lot
And I made a lot
And now everyone in my lane
Yeah
Put in work
And I'm getting mine
And now every time it go bang
Coming for the top

Got the game in a lock
Every time that I drop
Know it gotta go bang
Imma keep it hot
Know that I can never stop
Keeping everything I got
Imma make it go bang
Better than the best
Imma tell it with my chest
I don't got no time to rest
Now they know what I'm saying
Everybody know I'm coming next
Imma leave it in a mess
If they wanna test
Imma make it bang

If they didn't take a picture then it didn't happen
What is that life I don't really understand it
Every time I rap into the mic I be snapping
And they never thought I would make it with the rapping
World full of lies I'm used to it
Believe in myself I'm proving it
See the G Wagon they brag about
Roll the window down but I never see you in it
Yeah
Never been one for the fake shit
When I make it
Imma never be jaded
Pull up in the spot I be faded
With an A list
She be top notch, never be traded
I don't got time for the bullshit
I be ruthless
When I move quick
That's what my truth is
Talking my shit imma savage
Never average
If they want my old shit they can have it
Damn

Yeah
Seen a lot
And I made a lot
And now everyone in my lane
Yeah
Put in work
And I'm getting mine
And now every time it go bang
Coming for the top
Got the game in a lock
Every time that I drop
Know it gotta go bang
Imma keep it hot
Know that I can never stop
Keeping everything I got
Imma make it go bang
Better than the best
Imma tell it with my chest
I don't got no time to rest
Now they know what I'm saying
Everybody know I'm coming next
Imma leave it in a mess
If they wanna test

Imma make it bang
