

Better Than Ever

Bazanji

Aye
Grab an umbrella
I make it rain
No matter the weather
Been on a roll
I'm never gon' let up
I still got the scores
That I gotta settle
I want the trophy
I don't want no medal
Hop in the Porsche
My foot on the pedal
They think they know me
But I never met 'em
Back in the game
And I'm better than ever

Know that I'm running this shit
Everyone know that Bazanji don't miss
Imma keep dropping again and again and again
I'm giving them hit after hit after hit
I do not care what they think
Know I'm the goat
I been getting rich
I don't forget
And I don't forgive
Just leave me alone
I'm bout to go switch up the flow
Used to be sitting economy
Now I be sitting with no one beside of me
Graduated with a couple degrees
I still do it better than all of these rappers
Who thinking they poppin'
They coming for me then they gon' need a coffin
We talking bout dollars they changing the topic
I feel like I'm Elon the way that I rock it
I used to be wondering how could I get to the money
Now I got a whole lot of options
I'm turning it up like moshpit
They giving advice just stop it
Cuz they don't know nothing about it
Gotta go vegan with all of this bread
I don't want to party
I'm chillin' instead
They letting the fame go straight to their head
I'm killing my ego I left it for dead
Out in Miami I'm living
I'm bout to be neighbors with Diddy
I'm ready for battle
Now who coming with me
I pop in Eleven
Now we getting litty
I'm hoping this never gon' end
I'm doing this sh*t for my family and friends
I did it my way I don't follow the trend
I don't want a key to city
I'd rather be getting a key to the Benz

Grab an umbrella
I make it rain
No matter the weather
Been on a roll
I'm never gon' let up
I still got the scores
That I gotta settle
I want the trophy
I don't want no medal
Hop in the Porsche
My foot on the pedal
They think they know me
But I never met 'em
Back in the game
And I'm better than ever
