

# Bow Down

Bazanji

I've been busy working all night (All night)  
And I'm telling everybody I'ma get it right  
They know what I'm livin' like (They know)  
I've been busy going all out  
And I'm telling everybody I'ma get it now  
Everybody gonna bow down  
Down down down (D-down down down  
Down) down down down down down  
Now everybody gonna bow down  
Down down down (D-down down down  
Down) down down down down down  
Now everybody gonna bow down

Okay, I run it all, I got it all  
I know they wanna watch him fall but I'ma ball  
I gotta get 'em all all to call so I can haul the way to go  
And they gon' know, the day I blow  
I got game but I never play around now  
Got chains but I never stay down now  
Got flame if they talking bout' my name then they gonna see my aim and I'm b  
outta' go to town now  
They always been tellin' me no, tellin' me, tellin' me, tellin' me no  
But I know when I flow that I'm never letting go of the things I was told wh  
en the money didn't grow, like hold up  
Let me throw it up, while they go down, they gon pick it up  
Cause they know now  
That they better bow down to the kid with the crown and gown and I run it in  
my hometown  
We got it, and everybody know that we bout it  
Don't get in my way, I don't play with the fakes, gotta break off anyone tha  
t's only gonna take my dough now  
We got it, and everybody know that we bout it  
I focused on winning, no blocking my vision  
I'm never gon' stop until we make a million

I've been busy working all night (All night)  
And I'm telling everybody I'ma get it right  
They know what I'm livin' like (They know)

I said oh lawd, all these haters are on me  
Labels all wanna sign me, I'm fine because  
Who would've thought that I'm stacking this paper by something that started  
a hobby  
Making this money but that don't define me  
Or the women that want me  
Second we enter the venue they gon' give it up for Just Juice and Bazanji  
Gotta get it for the days they ain't back it, I know that I'll make it I got  
the schematic

Tell me I'll fail but it's clear that I'm passin' from low the basement to raising the attic  
I'm fucking the game, and ain't nothing the same  
So I'll swerve on a lame in my lane  
Shade on my name never had it, and no I won't have it so haters refrain  
I ain't gon stray from the ways of this savage life  
Most of ya'll know as the lavish life  
Check it I'm keeping it G till the death, you ain't ever, you ain't ever gon na catch me right  
I ain't gon stray from the ways of this savage life  
Most of ya'll know as the lavish life  
Check it I'm keeping it G till the death, you ain't ever, you ain't ever gon na catch me right
