

Built Different

Bazanji

Aye

Tell 'em I'm built different
Got a problem I'll deal with it
Count it up and I count again
Just to make sure not a bill missing
Twenty twenty got good vision
In my lane on the road to riches
Twelve years I put in work
They wondering how I'm still winning
Go tell 'em I'm built different

Run the game like I'm playing Madden
Call the plays I'm the team captain
In the gym got my reps up
I'm getting better, I'm still standing
Fake friends they be praying on my downfall
Make me want to go work harder
Cause I won't ever let it happen
Everyone got their own story
I'm telling mine reaching worldwide
Hoping some people can relate
And keep working to a better life
I been out here trying to motivate
While they be giving out fake advice
I don't do this just to make a living
I do this shit just to stay alive, yeah
I'm doing me
Nothing be making me nervous
Nothing was given I earned it
And this wasn't luck it was certain
I bet on myself and I cashed out
Nobody making me crash out
I'm too determined, I keep on learning
If they be wondering how

Tell 'em I'm built different
Got a problem I'll deal with it
Count it up and I count again
Just to make sure not a bill missing
Twenty twenty got good vision
In my lane on the road to riches
Twelve years I put in work
They wondering how I'm still winning
Go tell 'em I'm built different

Veteran but I'm still dropping
They used to hate now they plea copping
I'm in the lab while they bar hopping
Got what I wanted I'm not stopping
They see the work and their jaw dropping
I check the bank and I'm milly rocking
Not motivated by dollar signs
But that nine eleven my next option, yeah
Expensive taste from a young age
My life a journey, I turn the page
To the next one, I'ma make it great
Had to build it from the ground up

So I'm proud of what I have attained
Championship mindset I don't take L's I elevate
Yeah, getting better on the daily
Never gon' see me complaining
The old me is not the same me
And nothing ever gon' phase me
Been to the peaks, I been to the valleys
But I still made it out to the other side
They wondering how I kept my spirit high

Tell 'em I'm built different
Got a problem I'll deal with it
Count it up and I count again
Just to make sure not a bill missing
Twenty twenty got good vision
In my lane on the road to riches
Twelve years I put in work
They wondering how I'm still winning
Go tell 'em I'm built different
