

Burnout

Bazanji

Ok I'm losing focus on all that's going on I been building up stress, yes
Mind my business they still insist that I'm always owing em debt
I know I paid my dues and kept it moving I wonder what I got next
I guess I'm hoping that I just keep it up maybe cop a bulletproof vest, next
People switching up everyday
But I'm used it so I can't complain
Got it now and I figured out
That you all soft and you feel the pain
When you see me win and I know it hurts
But take it up with yourself first
I'm too busy with my own thoughts
Don't got time for your let's work
All of my beats they be slapping the hardest
Rapping like I came from Mars
It's never subpar
I'm these rappers father
If you not in my league don't even bother
I don't got time to be playing no games
I'm going insane
You looking at me but no we not the same
I'm doing it bigger and better
You here for a minute I'm here til forever

They wanna just see me fall
Watch it all burn down
But I already came too far
I can never burnout
I saw it comin way before they did
Finally got it they don't ever let me live now
I try to keep inside what imma do
I'm running outta room

Yeah it's 85 for that new Porsche
I'm moving up from that 2 door
Got way too much in my bank account
And I'm coming after my Grammy now
I'm never scared of your little threat
I'm worth more than you'll ever net
I'm rising up to a new level
If you bet on me that's an easy check
Stack it up, stack it up
Count it up
I need more that's not enough
Got a lotta people who depending on me
But these people really try stepping on me
I can't control what I'm saying now
Got a lotta thoughts that I'm letting out
I hope my fans all understand
That I love you all, please hold me down
Pandemonium, all that's going on
If you look in my mind
Yea I made the beat and I mixed it too so all the ownership mine
Please don't play with me cuz I'm not normal
No suit and tie no I'm not formal
I might pull up and let it go
Just don't tell me I didn't warn you

They wanna just see me fall
Watch it all burn down
But I already came too far
I can never burnout
I saw it comin way before they did
Finally got it they don't ever let me live now
I try to keep inside what imma do
I'm running outta room
