

Call Me

Bazanji

Tell me now when you gonna call me, call me
Told you that I'm sorry, I'm sorry
What you want from me, from me
Promise we can make it work this time
So when you gonna call me, call me
Told you that I'm sorry, I'm sorry
What you want from me, from me
Promise we can make it work this time

You don't ever wanna talk you just lookin' for a good time
I been on the gram and you been lookin' too fine
I been thinkin' bout you when I be alone
All I'm asking for is you to call my phone
We ain't got time for no other plans
And you ain't gotta worry 'bout my other friends
I know that you don't really like em
But I won't invite em
When you come to make amends, yeah
So what you want from me
I just told you that I'm sorry
But you won't call my line
Hit me one time

Tell me now when you gonna call me, call me
Told you that I'm sorry, I'm sorry
What you want from me, from me
Promise we can make it work this time
So when you gonna call me, call me
Told you that I'm sorry, I'm sorry
What you want from me, from me
Promise we can make it work this time

Yeah, you the only one that I run to
When I'm in your town tell you come thru
I don't wanna cause any trouble
Please just hit my line
Yeah, I meant what I said when I met you
Seen the bad times and the best too
Didn't make sense when I left you
I promise I live in regret too
I hate to see the good times gone, yeah
And I don't wanna die alone
So baby just call my phone
Tell you that I'm wrong

Tell me now when you gonna call me, call me
Told you that I'm sorry, I'm sorry
What you want from me, from me
Promise we can make it work this time
So when you gonna call me, call me
Told you that I'm sorry, I'm sorry
What you want from me, from me
Promise we can make it work this time
