

People out here changin' yeah  
They changed on me yeah  
I'm crazy and I know, know, know it, yeah  
I'm crazy and I know, know, know it, yeah  
Talkin bout my life  
Talkin bout the women  
Doin' all the things that they said I wouldn't like no, no, no  
Lookin' back now like where'd they go  
They don't know  
I'm on the low  
I'm doin' me  
I'm doin' me  
I'm doin' meeee  
Yeah, yeah, yeah, yeah, yeah, yeah  
They changed on me  
Now they chain smoking  
They've been thinking bout  
What we could've been  
I been busy now  
They've been wondering, yeah

They've been wondering what I know, aye  
Wondering how I go, aye  
Wondering when the money come and I'm never gonna go broke, aye  
Wondering when I fold, aye  
Wondering what I told, aye  
Wondering all the things I do with my life when I've been alone  
I've been out here tryna get it, now they wanting all the credit  
Now they wanting me to spread it  
While I'm busy getting lettuce  
I've been busy gettin' better  
I've been busy gettin' fresher  
I've been focused on my future cause I've living under pressure  
When I say something I mean it  
When I want something I scheme it  
When I got something, I'm never bluffing, my view been gettin' scenic  
And I played the game and I beat it  
They've been wondering if I cheated  
But they sleeping while I'm eatin'  
Now my whole squad been treated  
And I ain't even done yet  
My feet already been wet  
My shit all over the internet  
They know me, but we never met  
They know me and they know my set  
I say a line and they know the rest  
These other rappers been reaching out, but they really just tryna ben  
efit  
And I know
