

# Damage

Bazanji

We just keep on winning and I know they can't stand it  
We do not relate like I'm from a different planet  
I've been going crazy lately I've been tryna manage  
I'm out of control, I'ma keep on doing damage  
If you come around me I might let it bang  
I don't wanna see 'em ever coming in my lane  
They keep tryna call, I'ma always let it ring  
I don't need nobody, I'ma do it for the team

As soon as I get it I'm never lookin' back  
Everything I see I keep inside and put it on the track  
I don't need to cop a Bugatti to show I'm makin' racks  
Put my heart in every line and they all tryna paint it black  
Damn, if you want the drip I'm Aquafina  
They been tryna ride my wave but I just move like Katrina  
My demeanor been meaner than ever, I'm living way better  
When I don't put all my effort into pleasing people forgetting  
Everything that I do, everything that I say  
Lately I been overthinking gotta get out my way  
I been tryna do it all before I run out of days  
And when it's all said and done I hope they see what I gave, yeah

We just keep on winning and I know they can't stand it  
We do not relate like I'm from a different planet  
I've been going crazy lately I've been tryna manage  
I'm out of control, I'ma keep on doing damage  
If you come around me I might let it bang  
I don't wanna see 'em ever coming in my lane  
They keep tryna call, I'ma always let it ring  
I don't need nobody, I'ma do it for the tea

Please don't call my phone I've been in the tropics  
If we talking business I just wanna see the profit  
They must think I'm gothic 'cause I been a hot topic  
The music hitting Harden I'm not playin' for the rockets  
If we shooting for the top I got a hunnid rounds  
Keep the ammo by my side just in case they run me down  
They looking for they flow, I seen it in the lost and found  
Put that money where ya' mouth is and we never hear a sound  
But they all tryna be great, everybody in a rush, I'm okay if I'm late  
I'm just following my path, it ain't really a race  
And if you in it for the cash, we can never relate, yeah

We just keep on winning and I know they can't stand it  
We do not relate like I'm from a different planet  
I've been going crazy lately I've been tryna manage  
I'm out of control, I'ma keep on doing damage  
If you come around me I might let it bang  
I don't wanna see 'em ever coming in my lane  
They keep tryna call, I'ma always let it ring  
I don't need nobody, I'ma do it for the tea
