

# Dance With Me

Bazanji

I seen you from across the room  
You lookin' how these models do  
I came up tryna talk to you  
But baby it's too loud up in here  
You lookin' like you vibin' it's clear  
So baby you should come and have a dance with me  
I'm feelin' how you feeling it's a fantasy  
It's midnight and I'm moving off the Hennessy  
Ain't no other place where I would rather be  
So baby you should come and have a dance with me

I know that they said last call  
But I wanna keep it goin' all night long  
Ain't ever felt this vibe I'm on  
This is not the time to go right my wrongs  
I think about you when I write this song  
Let me take you out to another party  
The after party  
I'm off the henny but you like Bacardi  
I'm tryna lay with you on the weekend  
We can sleep in, get food in the evening  
What a life, what a time to live  
Fly to Miami we could go to Liv  
Know I got a lot but I like to give  
And I promise I'm the type to keep my promises  
I'm tired of dancing  
Too much standing  
Let's take a black car back to the crib

I seen you from across the room  
You lookin' how these models do  
I came up tryna talk to you  
But baby it's too loud up in here  
You lookin' like you vibin' it's clear  
So baby you should come and have a dance with me  
I'm feelin' how you feeling it's a fantasy  
It's midnight and I'm moving off the Hennessy  
Ain't no other place where I would rather be  
So baby you should come and have a dance with me

Aye  
We don't have no time to waste  
I know that you feeling some kinda way  
But we could always pick another time and place  
I been feeling like I hit the lottery  
I would never let you fly in economy  
And I heard you back here for a new semester  
You changed your major to astronomy  
Cuz I know you a star  
Said a G Wagon is your dream car  
Got the new Amex platinum card  
Took a lil' trip to the Prada store  
Soho House where you be on a weekday  
Save this night and I keep it on replay  
Fresh roses delivered on V-day  
I'mma do it all  
Need someone you know who to call

I seen you from across the room  
You lookin' how these models do  
I came up tryna talk to you  
But baby it's too loud up in here  
You lookin' like you vibin' it's clear  
So baby you should come and have a dance with me  
I'm feelin' how you feeling it's a fantasy  
It's midnight and I'm moving off the Hennessy  
Ain't no other place where I would rather be  
So baby you should come and have a dance with me
