

Emergency

Bazanji

Aye, aye
Talk that talk, let 'em hear some
My lawyer came back with the deal done
Might drop 10k on the Cartier
And pop champagne for the real ones
I turned my life into a motion film
Didn't go Hollywood to make a mil
I stayed the same, never popped a pill
They sold their soul, wonder how it feel
Told my accountant to count it up
Told the valet to come pick it up
I cannot get enough
Their shit is rented and my shit is different
This a big body, no this not a mini one
I'm boutta go on a milli run
Then I'mma run it back
Do it a couple more times
The grass always greener when they see my side
I'm tryna retire by 35

I been movin' like it's an emergency
They actin' like they never heard of me
With all of the beats I been murdering
They tryna convict me of first degree
I can't go back to the life I was living
I made it out and I been winning
I just keep goin' and goin' again
I deal with my problems but they never end, yeah
I been movin' like it's an emergency
They actin' like they never heard of me
With all of the beats I been murdering
They tryna convict me of first degree
I can't go back to the life I was living
I made it out and I been winning
I just keep goin' and goin' again
I deal with my problems but they never end, yeah

They tryna copy my style but this is a 1 of 1
They tryna do what I done but they don't got the drive
I tell 'em to hang it up
I'm in the studio daily, they be complaining
Something ain't adding up
I tell 'em send me the payment then we can talk
Cuz my time is not enough
I gotta play my position, I never be chillin'
I'm focused on getting the bread
She wanna pay me a visit, I tell her I'm busy
I'd rather make music instead
Nobody paying my bills
My family need a new mansion so they can be set
I need an island so I can be all alone
Then I can finally get me some rest, yeah

I been movin' like it's an emergency
They actin' like they never heard of me
With all of the beats I been murdering
They tryna convict me of first degree

I can't go back to the life I was living
I made it out and I been winning
I just keep goin' and goin' again
I deal with my problems but they never end, yeah
I been movin' like it's an emergency
They actin' like they never heard of me
With all of the beats I been murdering
They tryna convict me of first degree
I can't go back to the life I was living
I made it out and I been winning
I just keep goin' and goin' again
I deal with my problems but they never end, yeah
