

# Far From Normal

Bazanji

Lemme think back to the times I miss  
Roll around town hanging out of whip  
Nowadays life just feel like a mess  
Sometimes wish they didn't know I exist  
Feeling the pressure like are they impressed  
Or is all of this shit gonna come to an end  
Save it or spend  
So many questions I don't know the answer it all just depends  
How I'm feeling when the day is starting  
Sometimes good but the others darker  
Check my phone and see what they talking  
They got a lot to say but I beg your pardon  
Losing hope when I don't see results  
I came so far but I'm still not close  
To what I wanna be when the curtains close  
My life not normal I can't lose hope

They don't really know me like they think they do  
I been through a lotta things they never knew  
But everything I do is all part of the plan  
Yeah they hate it or they love it  
They don't understand  
I'm far from normal  
I'm far from normal  
They don't understand  
The shit that I just had to go through  
Yeah I'm far from normal  
I'm far from normal  
I been doing everything that they all said I won't do

Aye, check my phone and see my mama calling  
I don't wanna talk got a lotta problems  
Some of them still too far from solving  
She can hear pain in my voice when I'm talking yeah  
I don't know what's gotten into me  
I'm turning into my enemy  
Whole lotta money that's sent to me  
But nothing ever be helping me  
Cause I be struggling mentally, yeah  
I did a lot but it's not enough  
Proving myself is the shit I love  
The more that I get then the more that I give  
A hundred percent that I put into this  
Leaving the past and I'm making some room  
I know that my blessings gon be coming soon  
I cannot ever go hideaway  
Cause people depend on the shit I say

They don't really know me like they think they do  
I been through a lotta things they never knew  
But everything I do is all part of the plan  
Yeah they hate it or they love it  
They don't understand  
I'm far from normal  
I'm far from normal  
They don't understand  
The shit that I just had to go through

Yeah I'm far from normal

I'm far from normal

I been doing everything that they all said I won't do
