

Fed Up, Pt. 3

Bazanji

Too many thoughts on my mind
Every time that I go and I reminisce
I'm back in the game I'm venomous
The life I'm livin' got benefits
Now this the shit y'all wanted
Still got that I run it
Got a whole lot that's comin'
I been on top no jumping
Bring in the flow that's nothing
I'mma just kill every beat now
That's how I eat now
I don't got time in the week now
Everybody getting my rebound
Yeah they know deep down
They ain't ever gonna get it like me now
I'm nice with it
Still underrated they finding it
But it's gon come in time with it
I found my rope I'm climbing it
Everything I do I'm dominant
I got this
I'm still in the cut where the mob is
Same one from the day one rockin'
My shit too hot when I'm droppin'
I never got time for the problems
You do you and I'mma do me, we vibin'
Everything good now
That's how it should be
I'mma take over
Make it look easy, truly

I'm fed up they won't understand me
It's waking me out of my sleep
I gotta make it, ain't no plan B
I'm going till they gotta know me
I can't let it go
I can feel the weight on me
I won't ever know
If it's how it's meant to be

Everybody wanna be someone else
I just wanna be myself
Proud of the man I am
Look what I done
Know what I can
Only got one life I can't waste it
I don't think about being famous
I'm just doin' the shit that I love
Pray to the man that's above
Keepin' it coming
I keep giving trust
Back to the people that with me in every city
They holdin' it down
That's all I need
I got a whole lotta people to feed
Depending on me
How does it feel when you livin' it

I'm making the money and givin' it
I can't do this all alone
The people who with me the reason I've grown
Back to the grind I'm working
No days off, I'm good, I'm certain
Let it all out even if I'm hurting
That's my life, ain't no curtain
I can't hide, feel like a servant
Man of the people, that's my word
And I'm gonna keep it, I can't lie
Keep it real til the day I die
C'mon

I'm fed up they won't understand me
It's waking me out of my sleep
I gotta make it, ain't no plan B
I'm going till they gotta know me
I can't let it go
I can feel the weight on me
I won't ever know
If it's how it's meant to be
