

Focused

Bazanji

Aye, I got temptations all around me
But I'ma stay focused
I got my people depending on me
I cannot blow this
They see me coming I'm taking their place
Put em on notice
Tryna keep balance, whole lotta weight up on my shoulders
I got temptations all around me
But I'ma stay focused
I got my people depending on me
I cannot blow this
They see me coming I'm taking their place
Put em on notice
Tryna keep balance, whole lotta weight up on my shoulders
I got temptations all around me
But I'ma stay focused

Aye, I stopped dreaming and started living
Whole lotta fake people round me
They picking sides like a politician
I be living where they vacation
But I could never get complacent
Phone buzzing like day and night
But I'm working while they out getting faded
That ain't me cuz I move different
100 M's is my new mission
Tryna take me out of my ways
But I can't slow down I'm too driven
Got inspiration from my potential
Boutta take it to another level, aye

Got temptations all around me
But I'ma stay focused
I got my people depending on me
I cannot blow this
They see me coming I'm taking their place
Put em on notice
Tryna keep balance, whole lotta weight up on my shoulders
I got temptations all around me
But I'ma stay focused
I got my people depending on me
I cannot blow this
They see me coming I'm taking their place
Put em on notice
Tryna keep balance, whole lotta weight up on my shoulders
I got temptations all around me
But I'ma stay focused

Aye
I put in my 10,000 hours
Smell the scent of my own flowers
Don't underestimate your own power
In Miami everything is sweet
But the lifestyle turn your soul sour
Graduated with 2 degrees
But I chose the beats that I'm gon' devour
Talk is cheap and they say a lot

100 feet is my favorite yacht
They be flexin' on Instagram
They show a life they ain't really got
I be better inside my crib
With my feet up playing Call of Duty
Won't let em confuse me

Got temptations all around me
But I'ma stay focused
I got my people depending on me
I cannot blow this
They see me coming I'm taking their place
Put em on notice
Tryna keep balance, whole lotta weight up on my shoulders
I got temptations all around me
But I'ma stay focused
I got my people depending on me
I cannot blow this
They see me coming I'm taking their place
Put em on notice
Tryna keep balance, whole lotta weight up on my shoulders
I got temptations all around me
But I'ma stay focused
