No-no-no-no, no  
No-no-no-no, no  
No-no-no-no, no  
No-no-no-no

Wondering why I feel alone  
I don't know, know, know, know  
Losing my mind, where do I go?  
I don't know, know, know, know, know  
I'm battling with myself now  
I've been having a meltdown  
Feel like I'm trapped in a ghost town  
Wondering why I feel alone  
I don't know, know, know, know  
Losing my mind, where do I go?  
I don't know, know, know, know, know  
I'm battling with myself now  
I've been having a meltdown  
Feel like I'm trapped in a ghost town

Aye, I don't see nobody left  
Dug up a grave for all my regrets  
This lifestyle can be kinda lonely  
Got to sacrifice just to be the best  
I close my eyes and I see my fate  
Dance with the devil, I've been running late  
Can't ever settle, I stay engaged  
And I'll suffer now for the better days  
I know what's coming (Yeah)  
I be wanting it all or nothing  
These other rappers a dime a dozen  
I got my faith, only God judging  
I put in work but I'm not rushing (Nah)  
On the run like the cops coming (Yuh)  
Nowadays all the hate is real and the love is fake  
I can't ever relate (No way)

Wondering why I feel alone  
I don't know, know, know, know  
Losing my mind, where do I go?  
I don't know, know, know, know, know  
I'm battling with myself now  
I've been having a meltdown  
Feel like I'm trapped in a ghost town  
Wondering why I feel alone  
I don't know, know, know, know  
Losing my mind, where do I go?  
I don't know, know, know, know, know  
I'm battling with myself now  
I've been having a meltdown  
Feel like I'm trapped in a ghost town

Yeah, feel like I've been here before  
All of my life I been wanting more  
I never thought I was good enough  
Stuck in the water, need to find the shore  
I learned to swim from desperation (Wait)

No safety vest, no hesitation (Nah)  
I'm taking risks and they paying off  
From my hard work and my dedication  
I'm well equipped (Yuh)  
Life is hard but I never quit (Nah)  
Use the mic as my sedative  
And I treat the beats like my medicine (Woah)  
Took ten years just to settle in (Yeah)  
Now I'm here and I better win (Win)  
Ain't nobody gonna stop me now  
I been lit like I'm Edison (That's right)

Wondering why I feel alone  
I don't know, know, know, know  
Losing my mind, where do I go?  
I don't know, know, know, know, know  
I'm battling with myself now  
I've been having a meltdown  
Feel like I'm trapped in a ghost town  
Wondering why I feel alone  
I don't know, know, know, know  
Losing my mind, where do I go?  
I don't know, know, know, know, know  
I'm battling with myself now  
I've been having a meltdown  
Feel like I'm trapped in a ghost town
