

GHOST

Bazanji

Back in the game, back in the field
Started my day keeping it real
One of a kind, got the appeal
Put in the work, I'm never gon' fail
Feel like a giant, big as Goliath
King of the jungle, heart of a lion
I've been preparing for war
They coming for me then it's 'bout to get violent
I don't let nobody speak on my name
Teach 'em a lesson don't try it again
I worked too hard for what I became
Whole lotta enemies acting like friends
I don't need any advice
From people who never stepped foot in this life
I don't have time
I don't have time
I don't have time to listen to what they all saying
Where were they at when I was by myself
Where were they at when I needed help
Where were they at when the bills weren't paid
And they didn't believe I'd make it here
I still remember
I still remember
I still remember what I was told
Now they be coming back around
Thinking we cool
But really to me they ghost

I'm moving forward
I don't need anyone bringing me down
To me they ghost
Building a fortress
If they be breaking and entering
Then Imma leave 'em ghost
Keeping a sword
Whenever I'm ready for battle
Then they all be ending up ghost
I'm talking lyrically
I'm not promoting no violence
I'd rather have peace the most

The crown is heavy but I'll make it fit
Battle tested I'm well equipped
God got me I'm heaven sent
They already know I never miss
Opportunity knocking
Imma go answer it
Got me feeling like Kyrie
When I got a problem how I handle it
Responsibility come with power
But these people gonna mishandle
They be moving with bad intention
Not a role model they a bad example
I been out here tryna motivate
Since day one never in a scandal
One day they'll remember me
As a young king who led the masses

I'm moving forward
I don't need anyone bringing me down
To me they ghost
Building a fortress
If they be breaking and entering
Then Imma leave 'em ghost
Keeping a sword
Whenever I'm ready for battle
Then they all be ending up ghost
I'm talking lyrically
I'm not promoting no violence
I'd rather have peace the most
