

# GLORY

Bazanji

Aye, yeah  
Looking for me but I been on a roll  
See what I do and they already know  
Following dreams and I can't let 'em go  
Back to the grind and I'm back in my zone  
Ready for battle, I'm ready for war  
I got it all but I'm wanting more  
Nobody taking what I got in store  
This what I'm doing it for  
Remember they doubted me  
I had to bring the best out of me  
I put the pen to the paper, that's all that I need  
And I been a boss, I'm paying my salary  
We had to stay at the Double Tree  
Now we be living in luxury  
Keeping my circle small  
I don't need opinions from nobody under me

Feeling like they all tryna hold me down  
Know that it's my time I'm coming for that crown  
Ready for the battle I won't ever back out  
Let 'em know that I want all the glory now  
Feeling like they all tryna hold me down  
Know that it's my time I'm coming for that crown  
Ready for the battle I won't ever back out  
Let 'em know that I want all the glory now

I'm making it happen the way that I want  
Know who I am and I don't need to front  
Becoming the man that I said that I was  
Love it or hate it I don't give a uh  
Put in the effort I get the results  
I'm tryna cop a new Cullinan truck  
I'm boutta run it up, run it up  
Until I'm richer than Elon Musk  
I need a billi like Eilish  
They need to get a new stylist  
I'm not a pilot but I know I still be the flyest  
I got the touch like the Midas  
Don't even try it  
Coming for me and you playing with fire  
All of that cappin' we know you a liar  
I'm not surprised  
I'm on the road to the riches, your time expired

Feeling like they all tryna hold me down  
Know that it's my time I'm coming for that crown  
Ready for the battle I won't ever back out  
Let 'em know that I want all the glory now  
Feeling like they all tryna hold me down  
Know that it's my time I'm coming for that crown  
Ready for the battle I won't ever back out  
Let 'em know that I want all the glory now
