

# Hold On

Bazanji

I've been waiting my whole life for you  
All we have now is our time to lose  
So hold on  
We can just run away  
So hold on  
We have no time to waste  
I've been waiting my whole life for you  
All we have now is our time to lose  
So hold on  
We can just run away  
So hold on  
We have no time to waste

Aye  
One bad man - you call me Ginobli  
Now I got 2 foreigners (24) like Kobe  
Why you still act like you don't really know me  
Post on the Gram but I know you been lonely now  
Don't hit up my line if you not for real  
Switch your vibe take you out to the hills  
You could be mine I'd give my time  
That's how I feel  
Hold up  
Lemme bring it back to the days  
When we didn't have cable  
No iPhones we would talk at the table  
Crying out for help in your life  
I'm the one who can save you

I've been waiting my whole life for you  
All we have now is our time to lose  
So hold on  
We can just run away  
So hold on  
We have no time to waste  
I've been waiting my whole life for you  
All we have now is our time to lose  
So hold on  
We can just run away  
So hold on  
We have no time to waste

Need your touch  
Baby your vibe crazy  
Been on lately, don't miss  
Whenever we ride  
Look in my eyes  
Know you want this  
No more frontin'  
We got something, come on  
Let me show you all or nothing tonight  
Girl I don't wanna chase  
So name the time and place  
Just wanna get away with you  
Tell me the move, got nothing to prove  
Cuz I've been

I've been waiting my whole life for you  
All we have now is our time to lose  
So hold on  
We can just run away  
So hold on  
We have no time to waste  
I've been waiting my whole life for you  
All we have now is our time to lose  
So hold on  
We can just run away  
So hold on  
We have no time to waste
