

I'm in my lane, foot on the pedal
Top of the game, I will not settle
Ballin' again, call me LaMelo
I came here to win, I want the medal
Everyone talking but I never listen
I promise it never gon' matter to me
I just be putting in work and I stay on the grind
'Cause I know what I'm destined to be
I'm in my lane, foot on the pedal
Top of the game, I will not settle
Ballin' again, call me LaMelo
I came here to win, I want the medal
Everyone talking but I never listen
I promise it never gon' matter to me
I just be putting in work and I stay on the grind
'Cause I know what I'm destined to be, yeah

Aye, I been on top of my business
I'm getting exhausted from counting the digits
A lot of it come and a lot of it go
But I never been one to be hogging my winnings
And I been through everything, tell 'em I'm fine
'Cause what they gon' do if I tell 'em I'm lying
When you the one who doing all the providing
The only way out is to get in and grind
I'm stronger than ever I promise you that
I'm getting close to a victory lap
They come for your spot if you let 'em attack
So I'm moving militant, yeah that's a fact
I got my flaws, not scared to admit it
But nobody perfect in the world that we live in
I don't got a boss, I make my decisions
And nobody telling me different

I'm in my lane, foot on the pedal
Top of the game, I will not settle
Ballin' again, call me LaMelo
I came here to win, I want the medal
Everyone talking but I never listen
I promise it never gon' matter to me
I just be putting in work and I stay on the grind
'Cause I know what I'm destined to be
I'm in my lane, foot on the pedal
Top of the game, I will not settle
Ballin' again, call me LaMelo
I came here to win, I want the medal
Everyone talking but I never listen
I promise it never gon' matter to me
I just be putting in work and I stay on the grind
'Cause I know what I'm destined to be, yeah

Run it up, run it up
I'm in the studio and the sun coming up
They tryna label me, I'm not a one and done
I'm 'boutta take over what they been running from
I don't got nothing to hide, I know who I'm not
And all that I fear is not reaching the top

But all of this shit turned to politics
Fake handshakes and acknowledgement
I will not bow down, I got what I need
I'm all in when I bet on me
And my time is money I spend on me
No, they not reaching my pedigree
If it's not working I'ma work harder
I know they waiting on my departure
It won't happen I'm too invested, I'll die for this I'm a martyr

I'm in my lane, foot on the pedal
Top of the game, I will not settle
Ballin' again, call me LaMelo
I came here to win, I want the medal
Everyone talking but I never listen
I promise it never gon' matter to me
I just be putting in work and I stay on the grind
'Cause I know what I'm destined to be
I'm in my lane, foot on the pedal
Top of the game, I will not settle
Ballin' again, call me LaMelo
I came here to win, I want the medal
Everyone talking but I never listen
I promise it never gon' matter to me
I just be putting in work and I stay on the grind
'Cause I know what I'm destined to be, yeah
