

# Left Wrist

Bazanji

Aye, yeah  
Left wrist got the Roley  
Ballin' out like Kobe  
I remember when they hated on me  
Now everybody wanna know me  
In the crib where the crew be  
Got them tunes like looney  
Been the goat, I play the role  
I turned my life to a movie

Aye  
Never would've thought it would get like this  
Marble floors I don't do carpets  
If you coming to me then you better not miss  
'Cause I been too nice, I can't lie  
It's on point, I don't let shit slide  
Business good, I'm a numbers guy  
Don't need your help 'cause I been alright  
Now I'm in the crib and I'm stacking paper  
I took the stairs not the elevator  
Been a long journey, took my time and waited  
I was working hard now I finally made it  
My flow is crazy, can't imitate me  
I fought my way, I'm not intimidated  
Made it out to the other side  
In a new dimension like I'm in the matrix

Left wrist got the Roley  
Ballin' out like Kobe  
I remember when they hated on me  
Now everybody wanna know me  
In the crib where the crew be  
Got them tunes like looney  
Been the goat, I play the role  
I turned my life to a movie

I've been on fire like all year long  
It be feeling like I can't do wrong  
Too locked in, got too many hits  
I don't got no favorite song  
Making beats and I'm making records  
They can't compete they don't got the effort  
If you do me wrong then the tie is severed  
If I die today then I'll live forever  
I'm moving fast and I'm never crashing  
Your time is past and you losing passion  
I don't play the games, I don't do the acting  
I Keep it real and my diamonds dancing  
Woah, I don't got anyone left  
That I got to please or got to impress  
Made it out through all the hard times  
Now my life a movie, I ain't looking back, yeah

Left wrist got the Roley  
Ballin' out like Kobe  
I remember when they hated on me  
Now everybody wanna know me

In the crib where the crew be  
Got them tunes like looney  
Been the goat, I play the role  
I turned my life to a movie
