

Like That

Bazanji

Girl you know I wanna stay down but I didn't mean to do you like that
Girl you know that I been playin' round but I didn't mean to use you
like that
I been goin' day to day trying not to fade away I don't wanna separat
e from you
But we got our different ways we been playing different games
I don't wanna change but I got to

Yeah, lately I just seen the look that's in ya eyes
Now I'm feelin' outta sight
And I'm runnin' outta time
You been tryna test my patience
And you studyin' my mind
I been tryna work it out
But I'm not stronger than the lies
I been thinkin' about it
Thinkin' bout livin' without it
But I been fighting the feeling
And I been losin' not winning
I wanna stay in the moment
When I'm with u I be zonin'
And girl it feel like the ocean
But I been having trouble floating

Girl you know I wanna stay down but I didn't mean to do you like that
Girl you know that I been playin' round but I didn't mean to use you
like that
I been goin' day to day trying not to fade away I don't wanna separat
e from you
But we got our different ways we been playing different games
I don't wanna change but I got to

Aye, I been livin' in the fast lane
Tryna get this cash man
Turn me to a savage
Didn't mean to damage
Anything that you got goin'
Shoulda talked about it I got caught in the moment
But I love when you come and you stay for the night
I been workin' a lot and you keepin' me right
And I wanted it
I don't wanna flip
But I'm thinking long term and I don't think you want the life I live

Girl you know I wanna stay down but I didn't mean to do you like that
Girl you know that I been playin' round but I didn't mean to use you
like that
I been goin' day to day trying not to fade away I don't wanna separat
e from you
But we got our different ways we been playing different games
I don't wanna change but I got to
