

I had to go out and get it
Nobody giving me nothing
I got some people depending on me
I had to turn it from nothing to something
Now that I'm here I cannot be stopped
View look better when you at the top
Climb my way from the bottom I came up
Used to think what would happen if I gave up
But right now I been in my zone
Everyone around me know what I'm on
I been the greatest nobody be challenging me
Looked for potential I found it in me
And the way I be moving I can't be defeated
I told 'em I do it, nobody believed it
I made it, I made it, I been underrated
I put in the work, I don't do the complaining
I know what I got in me
I pray to God he be guiding me
He got my back
Remember when they used to laugh
Thinking I never could last

Now everything lit
Just me and my clique
The ones who been with me all I need
I got them and they all got me
Now everything lit
Just me and my clique
No fake love we gon' hold it down
Straight to the top from the underground
Now everything lit

I took the road less traveled
Found my way into the castle
I been the king of this
I got the throne, I'm defending it
Nobody getting it, yeah
They want beef, I'm a cash cow
They been throwing rocks from a glass house
But I don't pay it no mind
I been too busy can't give 'em my time
Life ain't easy but it's worth it
No 9 to 5 but I been working
24/7 tryna get it all right
On the runway but I'm 'bout to take flight
Headed to the top nobody can stop me
Got to get it ASAP, I be feeling Rocky
Bet on myself I turned down millions
I don't got a ceiling

Now everything lit
Just me and my clique
The ones who been with me all I need
I got them and they all got me
Now everything lit
Just me and my clique
No fake love we gon' hold it down

Straight to the top from the underground
Now everything lit
