

Menace

Bazanji

Aye, yeah
I'm coming back with no limit
Ready to finish the business
Counting it down by the minute
I kill it, I kill it, I feel like a menace

I'm ready for anything
I want it, I get it, I gotta win
I ain't cocky, I'm confident
Built it up, I can't fall again

Tell the world that I'm proud of me
Used to be broke, now I count a milli
All from the pain coming out of me
Now I'mma kill it, I kill it, I feel like a menace

Kill the game and I'm catching cases
I'm back to normal, yeah I'm back to basics
Free my mind with exotic women
They talking dirty in a different language

I don't sleep, I'm getting rest
When my family good and I see the check
I just spent like 50 thousand on furniture
So I don't feel the stress

Big baller when I coming through
You play with me then I'm playing too
Why you worried 'bout what I do
We are not the same, we got different views

Tell the truth, they got mixed feelings
I'm an outlier, never meant to fit in
It gon' backfire if you try to gimmick
If you start shit then I gotta finish

I'm coming back with no limit
Ready to finish the business
Counting it down by the minute
I kill it, I kill it, I feel like a menace

I'm ready for anything
I want it, I get it, I gotta win
I ain't cocky, I'm confident
Built it up, I can't fall again

Tell the world that I'm proud of me
Used to be broke, now I count a milli
All from the pain coming out of me
Now I'mma kill it, I kill it, I feel like a menace

Out in Mexico barely sober
Bigger team with a bigger motive
They ain't rapping, they just a poser
You a model for Fashionnova

I be coming through every time

With a better flow and a better motor
Stepping up when they calling me
And it's out the park like Sammy Sosa

Fuck with me and I hold it down
Big foreign when I come around
I ain't playing with you lil' boys
I'm better off getting money now

Keep the business all personal
Dissect the beat like surgical
They talking shit on the internet
But want a picture in a terminal

I'm coming back with no limit
Ready to finish the business
Counting it down by the minute
I kill it, I kill it, I feel like a menace

I'm ready for anything
I want it, I get it, I gotta win
I ain't cocky, I'm confident
Built it up, I can't fall again

Tell the world that I'm proud of me
Used to be broke, now I count a milli
All from the pain coming out of me
Now I'mma kill it, I kill it, I feel like a menace
