

Aye, yeah
I've been on top of the game
Work all day I been locked in
Monday to Sunday gettin' that bread
Take no days off then do it again, yeah
They can't do it like me
Nothing I got in my life was free
Feel like I'm in my own damn league
The best in the game I'm the MVP

Aye
Made it here but I'm not surprised
They doubted me so I had to rise
I put in hours like ten thousand
I'll live forever immortalized
The grind is real, not falsified
I made M's off of Spotify
And I never been like them other guys
Like Cudi do this shit day n' night, okay
Used to make that minimum wage
Now I got like a billion plays
Lookin' back and I came a long way
Still the same and I never gon' change
Only thing that been switchin' up is the bank deposits
Never thought about giving up
'Cuz I knew I'd make it ain't no other options

I've been on top of the game
Work all day I been locked in
Monday to Sunday gettin' that bread
Take no days off then do it again, yeah
They can't do it like me
Nothing I got in my life was free
Feel like I'm in my own damn league
The best in the game I'm the MVP

Aye
Nowadays I don't need to flex
Don't need a picture on a private jet
Not selling courses on Instagram
I'm showing people what you can get
When you stay committed and stay consistent
Let the universe do the rest
I got degrees and I paid tuition
Now I'm getting these music checks, I know
Life a journey with no GPS
Everyday I'm tryna do my best
Taking chances and taking risk
'Cuz that's the only way I progress
Manifest and I make it happen
Took my falls and I'm still standing
In my lane and I'm living fast
I'm never crashing

I've been on top of the game
Work all day I been locked in
Monday to Sunday gettin' that bread

Take no days off then do it again, yeah
They can't do it like me
Nothing I got in my life was free
Feel like I'm in my own damn league
The best in the game I'm the MVP
